

My name is Jonathan Valentine and this year, I'll be a Sophomore. I'm really looking forward to improving my musical skills in Mrs. Bengal's new class, instrumental music studio. Also, I'm pretty excited to see how the changes to the robotics club work out. As well, I'm interested in working at being a member in one of the drama department plays, and have joined Mr. Dery's new acting class. But the thing that I am most excited for is learning about what career I most enjoy and learning which field of work I would enjoy and fit in the best..
